Events after the reporting date:

In the second half of February 2022, an armed conflict erupted between Russia and the Ukraine. The Management of the Fund Manager assessed the armed conflict in the Ukraine in respect of 2021 and concluded that it had no impact on the figures reported in the Annual Report as at 31 December 2021. The Fund Manager assessed the impact of the conflict on the Fund and continues to consider that the going concern principle applies.

The Fund's exposure to Russia is below 15% on 31.12.2021 and below 5% on 20.04.2022.

In 2022, in the absence of market prices available to the Fund Manager, the Valuation Committee of the Fund Manager applies probability-weighted asset valuation in the valuation process using the information available. It cannot be excluded, however, that the value of the Russian assets in the Fund deviate significantly from the prices resulting from the valuation model used by the Fund Manager.

The Fund Manager's Management continuously monitors the development of the Ukrainian-Russian conflict, and will take the necessary steps to mitigate business risk.

Main features of the accounting policy and the accounting principles applied

The accounting policy of the Fund is based on Act XVI of 2014 on Collective Investment Trusts and their Managers and on the Amendment of Financial Regulations ("Collective Investments Act"), Act C of 2000 on Accounting ("Accounting Act"), Government Decree No. 215/2000 (XII. 11.) on the special provisions regarding the annual reporting and book-keeping obligations of investment funds ("Government Decree") and on other applicable regulations.

The Fund Manager maintains detailed analytical records of the assets and liabilities of the Fund.

The valuation and accounting rules of assets and liabilities were developed in accordance with the provisions of Section 7 of the Government Decree.

Valuation and recognition of securities

- In accordance with the provisions of the Government Decree, securities are recognised at net acquisition cost. Upon the sale of securities, the book value of the sale is determined by using the FIFO method.
- The valuation frequency of securities complies with that prescribed by the Collective Investments Act, the Government Decree and the Fund's Prospectus at market value.
- In accordance with the provisions of the Government Decree, the pro rata interests and dividends due for the securities in the reference year are recognised as the valuation difference of the securities.

Valuation and recognition of derivatives

The market value of derivatives is the expected gain or loss on the transaction in the future; still open derivative contracts – as positions – can be resold at that value. Derivative contracts are valued based on generally accepted valuation methods for individual transaction types (typically, their valuation is determined based on the values of actual or estimated future cash flows arising from the contract, discounted to the present [DCF model]).

The Fund recognises the option premium paid on option contracts as they incurred, among the expenses of financial transactions; it does not exercise the option of accruals afforded by Section 9/B(12) of the Government Decree.

Receivables and liabilities denominated in foreign currencies

The market value of receivables and liabilities denominated in foreign currencies and the market value of currency holdings and currency deposits is determined with the application of the Magyar Nemzeti Bank's official exchange rate as at the valuation date.

Intangible assets and tangible assets

The Fund has no intangible assets or tangible assets.

Explanation of specific balance sheet items:

Assets:

Securities are shown in Row 15 of the balance sheet at acquisition cost; within that, interest-bearing securities are recognised at net acquisition cost (without accumulated interest). Row 17 shows the accumulated interest on securities held at the accounting date at the end of the reference year, and Row 18 shows the difference between the (net) market value at the accounting date and the (net) acquisition cost. The valuation differences recognised are indicated in a separate table for each series of the securities.

Liabilities:

Start-up capital presents the nominal value of the Fund Units in circulation. Row 28 shows the cumulated number of Fund Units issued and redeemed from the first trading day. The accumulated result of previous years and the result of the reference year are shown in Rows 35 and 36, respectively. Unrealised capital gain and pro rata interests on the securities and other assets of the portfolio are shown in Row 34, while the capital gain/loss realised from the sale of Fund Units are shown in Rows 32 and 33.

Explanation of specific profit and loss account items:

P&L from financial transactions amounted to HUF 292,486,000, which is the difference between the income of HUF 1,609,444,000 and the expenses of HUF 1,316,958,000. Factoring in operating expenses at HUF 147,430,000 and other expenditures at HUF 4,385,000, the profit amounts to HUF 166,236,000.

Operating expenses are detailed in Table II of the liquidity report, in which the "financially realised" column contains the part of 2021 costs that has been paid by the maturity date. Any Fund-related expenses not included in the above table (e.g. distribution fee, advertising costs) are borne, in accordance with the Prospectus, by the Fund Manager.

VII. Presentation of derivative transactions and the resulting commitments

Derivative transactions and the resulting commitments are presented in Section XIII detailing the valuation difference of securities.

VIII. Presentation of the changes in the Fund Manager's operations, major factors having an impact on the investment policy

Internal policies for the Fund Manager's operation were developed – or amended – in accordance with the provisions of the Collective Investments Act and other applicable regulations. At the same time, there was no major change in the Fund Manager's operation during the reference period.

The activities performed by the Fund Manager and further details of its operation are available at https://www.otpbank.hu/OTP ALAPKEZELO/hu/bemutatkozas.jsp

The Fund's Prospectus and the Fund Management Policy were also developed or amended in accordance with the provisions of the Collective Investments Act and other applicable regulations.

There was no major change in the investment policy, also detailed in this context, that may affect the operation of the Fund.

IX. Remuneration paid by the Fund Manager to persons whose actions have a material impact on the Fund Manager as a whole and on the risk profile of the Fund:

Total remuneration paid by the Fund Manager in 2021:

HUF thousand

Description	Amount
Fixed remuneration	677,770

^{*}The above figures include the total remuneration paid by the Fund Manager (not just the part relevant to the given Fund)

X. Information on Risk Management

a) assets subject to special arrangements arising from their illiquid nature:

Neither during the reference period nor in the previous period did the Fund's portfolio contain any assets that were subject to special arrangements arising from their illiquid nature.

b) Liquidity management arrangements

Neither during the reference period nor in the previous period did the Fund Manager conclude a contractual arrangement on behalf of the Fund for managing liquidity regarding the Fund's portfolio.

Essentially, the Fund Manager holds the Fund's liquidity – observing the limits defined in the Fund Management Policy – in liquid Hungarian government securities maturing within one year and in breakable time deposits.

As part of liquidity management, in order to reduce transaction costs the Fund Manager checks the funds with liquidity surplus and liquidity deficit, and concludes purchase and sale transactions at market price between the funds to the debit and to the credit of the Hungarian government securities holdings of the funds. Consequently, in the first round, liquidity management transactions are conducted – primarily using discount treasury bills – between the funds managed by the Fund Manager. If the funds still have a net exposure after the above transactions, the Fund Manager conducts further transactions in the context of liquidity management with external partners, at market price.

c) current risk profile of the Fund and the risk management systems employed by the Fund Manager to manage those risks

Information on the Fund's risk profile is available in Chapter "The risk profile of the Fund" of the Prospectus, Chapter "Presentation of risk factors" of the Fund Management Policy, and the Sections entitled "Return and risk profile" and "Significant risk factors" of the Key Investor Information Document.

The Company's liquidity policy was developed in accordance with Articles 46–48 of Commission Delegated Regulation (EU) No. 231/2013 of 19 December 2012 supplementing Directive 2011/61/EU of the European Parliament and of the Council with regard to exemptions, general operating conditions, depositaries, leverage, transparency and supervision ("AIFM Regulation").

The Company's liquidity policy was developed in accordance with Section 24 of Government Decree No. 79/2014 (III. 14.) on the structural organisation, conflict of interest, conduct of business and risk management requirements of UCITS managers ("Government Decree No. 79/2014").

XI. Changes in the level of leverage

	31.12.2020	31.12.2021	Change 2021/2020
Leverage *	11,104,950,725	15,512,752,265	39.6922%

^{*} The leverage was calculated in accordance with Articles 6–11 of the AIFM Regulation.

XII. Miscellaneous information

a) Fund assets which have become illiquid

Neither in the reference period nor during the previous period did the Fund Manager segregate assets that have become illiquid as per the Collective Investments Act in relation to the Fund.

b) Acquisition of controlling influence by the Fund over non-listed companies

Neither in the reference period nor during the previous period did the Fund acquire controlling influence over a non-listed company.

c) Miscellaneous information

For performing its activity and for the other services not qualifying as mediated and non-mediated services listed in Section 36.1 of the Fund Management Policy, the Fund Manager charges a fee, which may not exceed 2% of the Fund's net asset value per annum. Among the investment fund management fees for other investment funds and other forms of collective investment trusts in the Fund's portfolio, featured as potential investments and which individually represent at least 20% of the net asset value, the maximum rate is 1% of the net asset value per annum.
