Reference to Flexible user rights

This menu displays data and parameters for a users with flexible rights. The flexible rights give users more detailed account rights and also access to different functionalities available in DSK Direct for Business clients.

- The indicates that the respective user is a <u>legal representative</u> and, in this role, has all the specific rights that can't be removed or changed
- Flexible rights, provide users more detailed rights for each account and also information to which payment signing group the account is added. Users included in the respective group are visualized with mouseover the group.
- **Specific rights** here you can see to which specific rights group a particular user has access. More information you will find here.
- You see information about the selected method for signing requests and documents, which is **only valid for the Groups Specific rights** (not linked to the payments signing method). The selected method will be applied to all assigned specific rights. More information about the methods of signing see <a href="https://example.com/heres/he
- Payment signature combinations here you will get information on specific combinations for signing between different users and the amounts up to/above which they are valid in case you have more specific requirements and needs.

Request for changing limits on Bank Client Level

Clicking on the **Change limits** button opens a form to fill-in the new limits.

- After setting the new values, click the <u>Continue</u> button to sign and send the request to the Bank.
- When setting a total sending limit of the company it is necessary to comply with the limits of the authorized users, if they have any. The limit for sending a single operation, follows to <u>be</u> less than the total limit of the company.

These limits do not apply to the following transfers:

- Between own accounts
- Utility payments
- Local taxes and fees
- Intrabank and interbank periodic or with future value date.

In case of mass payments of salaries the total amount of the included transactions is checked.

Menu Requests

Tab Pending Requests

In this menu you will find all saved requests that have not been sent to the Bank for processing. From the <u>Request Type</u> drop-down menu, you can filter by type of the requests you want to see for the relevant period. To sign a specific request, you need to tick the <u>Sign</u> checkbox and then **Submit** to send to the Bank for processing.

In case you are signing in combination with another person, only one of the options will be active:

- Sign, no option to send second signature is expected
- In case your signature is the second one, the "<u>Send</u>" checkbox will become active and you will be able to send it.
- If both "Sign" and "Submit" options are inactive, it means that you are not allowed to sign this type of request.
- Signing requests containing only changes to user data and limits is done with your current signing method /SMS and PIN code or mToken/.
- Requests that contain a change of rights on accounts and specific rights are signed with a one-time QES (Qualified electronic signature), specially issued for the purpose of the request by Certification Services Company.

Menu Requests

Tab Archive

In this menu you can see all requests signed and sent to the Bank for processing, as well as to track their status. Statuses:

- **"Sent for processing"** not a final status, i.e., the request is under processing.
- "Completed" is a final status, which means that the changes you requested have already been implemented.
- **Rejected**" if any request is in this status, you can contact your Relationship manager to find out the reason for the rejection.
