* The commission for transactions with shares is determined depending on the total value of the transaction according to the Tariff on Fees and Commissions applied by DSK Bank for investment products and services, which specifies the minimum order amount. The specified range represents the minimum and maximum cost in percentage. The values in BGN are based on the example below.

** The monthly fee due for the maintenance of a register in a foreign depository is calculated in EUR as follows:

- The respective fee (in %) on an annual basis under convention 360 shall be applied to the average daily nominal value of the financial instruments maintained in the register within the calendar month. Where the currency of the instrument is different from the euro, the values of the financial instruments in

the register shall be recalculated at the rate applied by the foreign depository. The due monthly fee is deducted until the 20th day of the month following the reporting month.

*** The methodology for calculating the fee is in accordance with Ordinance No. 23 on the Terms and Procedure for Evaluation of Client Assets. The interest rate convention applied is 30/360. The amount indicated is for the holding of financial instruments for one year.

The amount of the annual contribution for 2025, determined by the Investor Compensation Fund under Art. 77m of the Public Offering of Securities Act is 0.02% of the total amount of client assets (excluding cash) for 2024, determined on an average monthly basis.

Description of the parameters of the transactions with shares for which the calculations were made:

1. The example is relevant for the first column of "Value in BGN"

- Number of shares – 200
- Unit price – 5 BGN
- Total value of the transaction is 1000 BGN

2. The example is relevant for the second column of "Value in BGN"

- Number of shares – 20 000
- Unit price – 5 BGN
- Total value of the transaction is 100 000 BGN

The transaction value and the commission are blocked on the client's account when a buy order is given and are deducted from the account at the transaction's value date. The annual fee for the Investor Compensation Fund is paid monthly. Upon sale, the commission for the transaction and the transfer fee are set off against the total value of the transaction, which is credited to a client's current account.

**** The monthly maintenance fee for a foreign depository registry is calculated in euro as follows:

- the applicable fee in % on an annual basis under the 360 Interest Rate convention applies to the market value of the financial instruments held in the register within the calendar month. Where the currency of the instrument is different from EUR, the values of the financial instruments in the register shall be exchanged at the rate applied by the foreign depository. The due monthly fee should be paid by the 20th of the month, following the reporting month.

***** The methodology for calculating the monthly fee is in accordance with Ordinance No 23 on the Terms and Procedure for Valuation of Client Assets issued by FSC with effect from 04.04.2006, in application of Convention 30/360. The fee is relevant to retail (non-professional) clients. The indicated amount is for financial instruments safekeeping for a period of one year and is held until 20th of the month, following the reporting month.

The amount of the annual contribution for 2025 determined by the Investor Compensation Fund pursuant to Art. 77m of the POSA is 0.020% of the total amount of clients' assets for 2024 (without funds), determined on an average monthly basis.

Description of the parameters of a transaction with shares for which the calculations were made:

1. Purchase / sale of shares
2. Number of shares - 500
3. Unit price - 20 EUR/USD
4. Total transaction amount 10 000 EUR/USD

The total cost calculations are based on an indicative unit price traded on the Frankfurt Stock Exchange and US stock exchanges for one-year investment.

The transaction value, the commission and the transfer fee are blocked on the client's account when placing a buy order and are deducted from the account at the value transaction's date. The annual fees for safekeeping and Investor Compensation Fund are paid monthly. Upon sale, the commission for the transaction and the transfer fee are set off against the total value of the transaction, which is credited to a client's current account.

III. Cumulative effect of costs on return in the provision of investment services

No sudden changes or fluctuations of the specified costs in pt. I. and II. are expected. The illustrations below graphically present these costs.

The effect on the client's result from the transaction with shares is indicated as a percentage of the transaction's nominal value in I. and II. The expected costs are based on the example above.

*For transactions with a value of more than a thousand leva, a lower fee is applied
