Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Schroder Investment Management (Europe) S.A. in relation to this Key Information Document. Schroder Investment Management (Europe) S.A. is authorised in Luxembourg and regulated by the CSSF.

This document was produced on 27/05/2026.

What is this product?

Type

This is an open ended UCITS fund.

Term

The fund is established for an unlimited period. In certain circumstances the fund may be unilaterally terminated in accordance with legal requirements.

Investment objective

The fund aims to provide capital growth by investing in equities of companies worldwide, including emerging markets, whose activities create positive social and environmental impact and which the investment manager deems to be sustainable investments.

The fund is actively managed and invests its assets in (i) sustainable investments, which are investments that the investment manager expects to contribute towards the advancement of an environmental or social objective linked to one or more of the UN SDGs, and to deliver returns to shareholders over the long term, and (ii) investments that the investment manager deems to be neutral under its sustainability criteria.

The investment manager will select companies from a universe of eligible companies that have been determined as meeting the investment manager's impact criteria. The impact criteria include an assessment of a company's contribution to the UN SDGs alongside the investment manager's assessment of the company's impact via its proprietary impact investment management framework and tools (e.g. impact scorecard).

The fund seeks to deliver positive impact and is part of Schroders' Impact Driven strategies. As such, it applies highly selective investment criteria and its investment process is aligned with the Operating Principles for Impact Management which means that impact is embedded in all the steps of the investment process, annually disclosed and independently verified by externally specialized parties. All investments in the fund are subject to this framework as this is the core component of the Schroders proprietary impact investment management framework.

Investments are composed of companies whose products and services contribute positively to at least one of the UN SDGs. In order to identify companies with a direct link to a UN SDG, the investment manager applies a two step approach:

- The first is a revenue based approach that considers whether a certain percentage of the relevant company's revenues, capital expenditure or operating expenditure contributes to an environmental or social objective (as applicable).
- The second is a detailed impact assessment of the company via the completion of a proprietary impact scorecard. The investment manager considers different aspects of impact such as: what outcome and UN SDGs the company is contributing to; who is served by the outcome (such as the relevant stakeholder or industry); an assessment of our expected contribution (including Schroders influence and engagement); and consideration of impact risks. The assessment typically includes Key Performance Indicators (KPIs) that are used to track impact over time.

The company and impact scorecard are then validated and approved by Schroders' Impact Assessment Group (IAG), in order for the company to be eligible for inclusion in the fund's investible universe. The IAG consists of members from Schroders' impact and sustainable investment teams and portfolio managers from the Investment team. There may be some limited instances where step 2 and the IAG approval may follow subsequently (such as a particularly time sensitive investment).

The fund invests at least two-thirds of its assets in equities of companies worldwide, including emerging markets. The fund typically holds 40 – 80 companies.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions,

industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus).

Recommendation: Investors should seek independent advice or satisfy themselves that they have an understanding of the strategies and techniques employed by the manager.

The fund is valued with reference to the net asset value of the underlying assets.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the fund's webpage, accessed via www.schroders.com/en/lu/private-investor/gfc.

The fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the investment manager's rating criteria.

The investment manager may also engage with companies held by the fund to improve sustainability practices, and to enhance social and environmental impacts generated by underlying investee companies. More details on the investment manager's approach to sustainability and its engagement with companies are available on the webpage <https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability>.

The fund may use derivatives with aim of reducing risk or managing the fund more efficiently.

Benchmark: The fund does not have a target benchmark. The fund's performance should be compared against its comparator benchmark, being the MSCI AC World index. The comparator benchmark is only included for performance comparison purposes and does not determine how the investment manager invests the fund's assets.

The fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the comparator benchmark. The investment manager will invest in companies or sectors not included in the comparator benchmark.

The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The benchmark does not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.

Currency: The sub-fund currency is USD. The share class currency is EUR.

Dealing Frequency: You may redeem your investment upon demand. This fund deals daily.

Distribution Policy: This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Depositary: J.P. Morgan SE

Intended retail investor

The fund may be suitable for investors who are more concerned with maximising long term returns than minimising possible short term losses. The fund is intended for retail investors who have a basic investment knowledge and an ability to bear large short-term losses. This investment should form part of a varied investment portfolio. This fund is suitable for general sale to retail and professional investors through all distribution channels with or without professional advice.

You can get further information about this fund, including the prospectus, latest annual report, any subsequent half-yearly report and the latest price of shares from the fund's management company at 5, rue

Höhenhof, L-1736 Senningerberg, Luxembourg, and from www.schroders.com/kiids. They are available free of charge in English, Flemish, French, German, Italian and Spanish.

What are the risks and what could I get in return?

Risks

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you.

Performance Scenarios

Recommended holding period:		3 years	
Example Investment:		EUR 10000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 3230	EUR 3910
	Average return each year	-67.7%	-26.9%
Unfavourable	What you might get back after costs	EUR 8000	EUR 9900
	Average return each year	-20.0%	-0.3%
Moderate	What you might get back after costs	EUR 10370	EUR 12660
	Average return each year	3.7%	8.2%
Favourable	What you might get back after costs	EUR 13910	EUR 17410
	Average return each year	39.1%	20.3%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and suitable benchmark over the last 10 years. The scenarios

We have classified this product as 4 out of 7, which is a medium risk class. The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Be aware of currency risk. In some circumstances you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

You can find more information about the other risks in the prospectus at www.schroders.com.

shown are illustrations based on results from the past and on certain assumptions.

The stress scenario shows what you might get back in extreme market circumstances.

The Unfavourable scenario was simulated based on the appropriate benchmark used for an investment between 03 2017 to 03 2020

The Moderate scenario was simulated based on the appropriate benchmark used for an investment between 08 2022 to 08 2025

The Favourable scenario was simulated based on the appropriate benchmark used for an investment between 12 2018 to 12 2021

What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

The fund's assets are held in safekeeping by its depository, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A. In addition, the fund's assets are segregated from the depository's assets, which limits the risk of the fund suffering loss in case of default or insolvency of the depository or someone acting on its behalf. However in the event of any loss, there is no compensation or guarantee scheme in place which may offset such loss.

What are the costs?

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000,00 is invested

	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 704	EUR 1202
Annual cost impact (*)	7.0%	3.9% each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12,0 % before costs and 8,2 % after costs.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	These costs are already included in the price you pay when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge. [5.00%]	Up to EUR 500
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	These costs are an estimate based on actual costs over the last year that we take each year for managing your investments. [1.85%]	EUR 189
Transaction costs	This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. [0.15%]	EUR 15
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

How long should I hold it and can I take money out early?

There is no required minimum holding period for this fund but investors should not view this as a short term investment and you should be prepared to remain invested for at least 3 years. However, you can redeem your investment at any time, subject to any applicable costs and charges relating to the sale or purchase of the shares, in accordance with the fund's prospectus.

How can I complain?

Should you wish to complain about the fund or any aspect of the service provided to you by Schroders, you may contact the Compliance Officer, Schroder Investment Management (Europe) S.A., at 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg or submit your complaint via the contact form on our website, www.schroders.com or email on EUSIM-Compliance@Schroders.com.

Other relevant information

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.

Tax legislation: The fund is subject to Luxembourg tax legislation which may have an impact on your personal tax position.

Umbrella Fund: This fund is a sub-fund of an umbrella fund, the name of which is at the top of this document. The prospectus and periodic reports are prepared for the entire umbrella fund. To protect investors, the assets and liabilities of each sub-fund are segregated by law from those of other sub-funds.

This Key Information Document is updated at least every 12 months, unless there are any ad-hoc changes.

The cost, performance and risk calculations included in this Key Information Document follow the methodology prescribed by EU rules.

You can view the past performance chart (over the last 0 years) and the historical performance scenarios data at: www.schroderspriips.com/en-lu/lu/priips/gfc
